The comparison of data in the records of political parties is made in accordance with Article 21 of the CEC Rule No. 01/2008.

The audit was conducted in accordance with ISA International Standards on Auditing and terms of reference given by CA, recommendation was that the margin of error should not be greater than 10% (in terms of large amounts) and in amount smaller than € 10.000 this margin of error is not tolerated.

During the audit we have taken into account, but not limited to, Law no. 03/L – 172 on Local Election in Kosova, Law no.03/L-073 on General Elections in the Republic of Kosovo; the Law on Financing of Political Entities No. 03/L-174; CEC Regulations 01/2008 and 12/2009..

Statement of Income and Expenditure, including all branches and sub-branches, statement of monetary donations, statement of contributions in kind, the statement that shows every payment made to another person during the period included in the report, if the overall value of all payments made to that person during this period exceeds the amount of five thousand (5.000) Euro, by writing the reason for the payment.

For the Early Elections for Municipal Mayor in Rahovec, five (5) Campaign Financial Reports have been audited.

Frequent meetings with the Political Entity Financial Representatives were held during the audit in order to clarify records or to get additional information.

We have submitted preliminary reports under section 22.4 of the CEC Rule No. 01/08 to political parties. Each Political party had the deadline to submit a revised report and to comment on the remarks made from the auditor within five (5) working days from the date of receiving the draft audit report.

PP Financial Statement and disclosure Audit is regulated with Law no. 03/L – 172 on Local Election in Kosova, Law 03/L-073, CEC Regulation 01/2008 and 12/2009, and Law 03/L-174.

Financial control of PP is regulated with law on financing Political Entities Law no 03/L-174, article 19, according to which:

- CEC performs control of each financial report.
- CEC performs control in compliance with standards of applicable accounting in Kosovo.

To verify the Campaign Financial Disclosure Reports, auditors firstly relied on reports submitted by each Political Entity. In addition, several cross-referencing methods were used and comparisons between Entities were made to check whether the information provided by each Entity was credible. Confirmation from third parties as Ministry of Finance, TV stations and newspapers were taken to compare the data presented by Political Entities. Former records of the Political Entities were cross-checked with new ones, price ranges of similar goods and services were gathered from the market, observer reports were used for rallies, and bills, receipts and other supporting documentation were cross-referenced against the disclosed figures. Information from main TV channels and newspapers was gathered to assess the advertisement Expenditures of Entities.

GENERAL EVALUATION

The purpose of audit reports is to ensure that Political Entities of Kosovo commit and understand that transparency is an essential value in democratic societies. This commitment is not only bound to elected Party Officials (candidate financial disclosure) but also comprises the internal mechanisms of Political Entities. How funds are raised and how they are spent by these Entities is of the utmost importance during election periods. In addition, all registered Political Parties must submit campaign financial reports according to the current framework for Political Parties registered in Kosovo.

Results and general observations

Detailed results will be presented throughout this report, however, a few particular results need to be highlighted.

- The Political Party Registration Office and the Auditor found no evidence that any of the Political Entities taking part in Early Elections for Municipal Mayor in Rahovec exceeded the spending limit for the campaign period. Each PP participating in the Early Elections for Municipal Mayor in Rahovec had the spending limit of € 26,180.00.
- Some of the Political Entities have still not fully complied with the requirements for financial disclosure. The auditors consider the most serious offences to be the declaration of uncompleted reports and failure to disclose sources of Income.
- In most occasions, In-Kind Contributions were underestimated or not reported at all.
- The Political Party Registration Office committed an infraction by accepting Financial Disclosure Report signed by not authorized representatives of the Political Entity, as a

consequence there are cases when the political entity does not recognize the submitted Financial Disclosure Report.

For the purpose of this audit, In-Kind Contributions have been defined as goods and services of any value provided without any payment in return. Thus, an In-Kind Contribution is made when, for instance, a Political Entity receives office space for free; hosts rallies without paying for rent of facilities or the services of singers and entertainers; or receives labor services on a volunteer basis by Party activists (other than the form of voluntary unskilled labor donated by private individuals). Provision of vehicles, drivers or fuel is also deemed as an In-Kind Contribution. In-Kind Contributions are not to be limited to the examples listed above.

- In some cases the Balance Sheets of Political Entities were not presented and when they were presented in several occasions they did not balance.

Generally, most Entities underestimated their Expenditures in following categories:

Rent, wages and utilities

Only few Entities declared the costs related to election observers.

Billboards

It is the view of the Auditor that most of the Political Entities have underreported this information.

Rallies

It is the view of the Auditor that most of the Political Entities have underreported the costs of rallies.

Transportation

Only a few Political Entities own vehicles. It is the view of the Political Party Registration Office that headquarters and branches of all Entities have had the benefit of using vehicles during the campaign period, whether rented or provided by members or supporters. Regardless of the way the vehicle(s) have been provided, the use represents an element of cost.

Results and general observations

- Some of Political Parties do not keep and maintain accurate and detailed financial records, as requested by article 21 CEC rule 01/2008 and article 5, 6 of Law no. 03/L-174 (On Financing Political Entities)
- The majority of Political Parties do not exercise the internal financial control as described in Law no. 03/L-174 (On Financing Political Entities, article 17), denying so the rights of

members to be informed for all incoming and expenses of political subject and also for the responsibility of appropriate authority for financial transactions.

- The auditor considers to be an internal control weakness the cash transactions in most of Political Parties, also it was impossible for the auditor to verify the existence of payments made and funds received since most of Political Parties did not maintain an adequate up to date cash book.
- Some of PP do not have professional staff, (financial officer) who is certified as an accountant, responsible for accounting and financial reporting
- Some of Political Entities failed to comply with CEC Electoral Rule 12/2009 Section 3 Campaign Financial Disclosure Requirements and Law 03-L/073 on General Elections Article 40 Financial Disclosure Requirements, according to which:
Each registered Political Party shall keep and maintain for a period of seven (7) years accurate and detailed financial records.
- CEC in absence of professional staff has not respected the article 19 of Law no. 03/L-174 (On Financing Political Entities) point 1;2 and 3 by not performing controls of each financial report and controls that they are in compliance with in compliance with applicable accounting standards in Kosovo.
- CEC in the absence of professional staff has committed a violation of Article 15 of Law no. 03/L-174 (On Financing Political Entities) by accepting incomplete reports.
- None of Political Entities has include on their Annual Financial Reports the income and expenses of their parliamentary groups
- CEC in the absence of professional staff has committed a violation Rule 12/2009; article 3.5, which requires that Each Financial Officer shall attend a training session in accounting and auditing arranged by the Office as soon as possible after his or her appointment unless he or she can establish to the satisfaction of the Office that he or she possesses sufficient expertise and experience that such training is not necessary.
CEC lacks in having a professionally prepared financial officer, the responsibility of he / she will be checking the financial statements of PP and organizing training for financial officers of the PP.
- Some of Political Entities did not submit copies of the receipts for all Expenditures in excess of one hundred euro (€100) in the financial reports submitted to The Office;
- Financial Disclosure Reports are not adequate for interim reporting since they require information that cannot be subtracted on the middle of the period and also include information that pertains to annual activities not campaign, as a result of this many of Political Entities have filled out just the Income Statement for the Campaign financial Declaration since the declaration of Balance sheet figures for an interim period that pertains just to campaign is almost impossible.

Recommendations

It is clear that improvements are still needed on the part of the Political Entities, the Political Party Registration Office, and the regulatory framework, in order to ensure the greatest possible transparency in the financial dealings of the Political Parties.

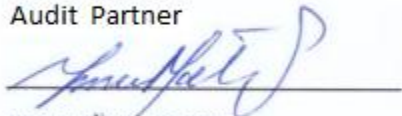

Several recommendations are listed below:

- We recommend to PP to keep and maintain proper records of their financial transactions in accordance of Kosovo Accounting Standards.
- Each Political Entity should to record and preserve their records for all transactions occurred.
- We recommend to Political Parties to make all payments and receipt through bank account, except payments for small expenditure, and also to maintain an adequate cash book register in which will be recorded all payments and receipts.
- In order to increase the quality of reporting on behalf of the Entities Political Entities' administrative staff should be trained to ensure that they have the necessary skills to submit more accurate
- We recommend to Political Parties to establish internal reporting mechanism and financial management procedures in order not just to compile inclusive reports, but also to prevent internal fraud.
- Each Political Entity should keep and maintain for a period of seven (7) years accurate and detailed records of the financial situation of the Entity and all of their branches. Records for individual income (wages and salaries) should be kept for 10 years.
- The Office of registration of PP should hire an finance officer, who at least should be a certified accountant, in order that all financial reports and related documents are checked and reviewed before accepting them, and also PP will be more informed about the contents of financial reports. This officer should also have the task of training Financial Representatives of PP.
- The Office of registration of PP should change and adopt the Financial Disclosure Reports basen on specifics that the election campaign has in order for PP to be able to report completely separate the campaign activities from the annual ones.
- Financial Disclosure Reports to be accepted only when are signed by authorized representatives of the Political Entities.
